WORK EXPERIENCE

1/ Lead Front-end developer (Remote)

Nasher

11/2018 – Present

Saudi Arabia

A national institution working in the field of software and technical projects and seeks to transform it into assets and properties.

Achievements/Tasks

- Converted mockups and designs into sleek responsive front-end pages.. Programmed with React JS, Styled Components and Framer Motion.
- Coordinated with back-end developers and product designers, coded a highly scale-able web application.
- Drove the UI/UX overhaul project and develop for future scale-ability of the application.

2/ Front-end developer

RivalZ

05/2017 – 11/2018

Algeria

RilvaZ is a digital company that creates web/mobile apps for small and large businesses.

Achievements/Tasks

- Interfaced with and developed front-end of small to large scale web applications for our clients.
- Dealt with production code and updated legacy jQuery code to React JS.
- Coordinated closely with UI/UX , Design & QA. Prototyped and Wireframed.
